PROFESSIONAL SUMMARY

Full Stack Developer with **3.5+ years of experience** building scalable enterprise applications using **C#, .NET, Angular, and TypeScript**. Experienced in designing **REST APIs, authentication systems (Okta SSO), and cloud-based data processing solutions**. Proven ability to optimize system performance and **reduce cloud processing costs by 40%** through efficient data filtering strategies. Skilled in **CI/CD pipelines, database design (SQL & MongoDB), and modern web development practices**.

SKILLS SUMMARY

- Languages: TypeScript, C#
- Frameworks: Angular, .Net Core
- Platforms: Visual Studio, MongoDB Atlas
- Tools: Robo 3T, Git,
- Cloud technology: Azure
- Libraries: Entity Framework Core, PrimeNG
- Databases: MongoDB, SQL

WORK EXPERIENCE

Software Engineer

Dec 2025 - Present

DucenIt | Chennai, India

- Integrated **Okta-based Single Sign-On (SSO)** into a legacy **.NET Framework application**, strengthening enterprise authentication workflows and improving secure access management for users.
- Implemented a **feature-rich PDF viewer integration** enabling capabilities such as **search, copy, highlight, download, and seamless document navigation**, significantly enhancing document interaction within the application.
- **Designed the solution architecture** for optimizing data retrieval workflows and implemented dataset-level filtering in **Google Cloud Platform (GCP)**, reducing unnecessary data scans and lowering cloud processing costs by **approximately 40%**.

- Collaborated with stakeholders to **gather client requirements and translate them into technical user stories**, ensuring clear development scope and efficient implementation.
- Developed and executed **unit test cases using NUnit** to validate business logic and maintain high code quality standards.
- Participated in **Agile development cycles**, contributing to feature design, implementation, and production issue resolution.

Associate Engineer DucenIt | Chennai, India

Jul 2024 – Dec 2025

- Engineered and established a **ServiceNow RESTful API** connector using **C# and .NET**, enabling the creation of multiple data sources and workbooks for enhanced data management.
- Addressed and **resolved** critical **filter query issues** in multiple data connectors, ensuring accurate and efficient data retrieval.
- Built a scheduled maintenance feature using **cron**, enabling efficient scheduling and **handling of tasks across multiple time zones**.
- Designed and implemented a **user registration** feature for third-party applications using **SQL, MongoDB, C#, .NET, and Hangfire**, ensuring secure and seamless user onboarding.
- Led a comprehensive **NuGet package upgrade** across core services, resolving compatibility issues and enhancing security, maintainability, and alignment with modern .NET standards.
- Collaborated with DevOps to **deploy changes through a CI/CD pipeline**, gaining hands-on experience with automated build, test, and deployment processes for reliable releases.

Trainee DucenIt | Chennai, India

Oct 2023 – June 2024

- **Independently developed** the complete **UI for an AI project**, creating the application from scratch while ensuring scalability and performance.
- Contributed as an internal team member in a **hackathon** conducted by Orion Innovation and won a **cash prize of ₹10,000**.

- Conducted multiple knowledge transfer (**KT**) sessions for team members on **Hangfire, Entity Framework Core, and Angular**, improving team proficiency.
- **Collaborated with UX/UI designers** to implement **user-friendly interfaces** with support for **multiple themes**, enhancing the overall user experience.
- **Involved in resolving production bugs** in both frontend and backend to improve application stability and performance.
- Followed **SonarQube-driven code quality practices to maintain clean code**.

Internship

Aug 2022 – Sep 2023

DucenIt | Chennai, India

- Developed frontend features using **Angular, TypeScript, and PrimeNG**, contributing to reusable UI components and responsive design.
- Assisted in resolving application bugs and improving user experience across frontend modules.
- Collaborated with QA teams to support **BDD-based testing scenarios**, ensuring reliable feature validation.

EDUCATION

Bachelor of Engineering (B.E.)

Jul 2019 – May 2023

Electronics and Communication Engineering (CGPA – 8.7)

Sri Eshwar College of Engineering (Coimbatore)
